

Bristol, North Somerset and South Gloucestershire Clinical Commissioning Group Governing Body Meeting In-Common

Date: Tuesday 3rd October 2017
Time: 13.30
Location: Clevedon Hall, Elton Road, Clevedon, BS21 7RH

Agenda Item: 9.1

BNSSG Finance Report as at 31st August 2017 (month 5)

Report Author: BNSSG Finance Team
Report Sponsor: Glyn Howells

1. Purpose

This report provides a summary of the BNSSG Financial position as at month 5 (31st August 2017) including the year to date and forecast outturn position, the key financial performance indicators and risks and mitigations.

2. Recommendations

The Governing Body is asked to

- note the financial position, the key risks, issues and mitigations.
- note that the detailed financial assessment of the financial position including the risks and mitigations will be undertaken at the Joint Strategic Finance Committee from October onwards.
- note the forecast position reported to NHS England.

3. Background

The Governing Body undertakes objective scrutiny of the CCG's financial plans and performance and seeks assurance from the committees of the CCG.

Alongside internal scrutiny of financial performance as part of the CCG's own governance arrangements, there is separate monthly financial reporting to NHS England. This also informs the CCG's Assurance Framework and Checkpoint meetings with the Regional Team.

4. Financial implications

Set out in the report.

5. Legal Implications

Section 223H of the Health and Social Care Act 2012 sets out the duty for CCGs to break even on their commissioning budget for both revenue and capital. BNSSG is required not to exceed the cash limit set by NHS England, which restricts the amount of cash drawings that the CCG can make in the financial year. The CCG must also comply with relevant accounting standards.

6. Risk Implications

As set out in the report – the CCG must ensure it delivers its financial targets.

7. Implications for Health Inequalities

No Issues Identified.

8. Implications for equalities (Black and Other Minority Ethnic/Disability/Age Issues)

No Issues Identified.

9. Consultation and Communication including Public Involvement

Not Applicable.

1 INTRODUCTION AND PURPOSE

This report shows the financial position for Bristol, North Somerset and South Gloucestershire CCGs at Month 5. The report is an integrated finance report for the three commissioning organisations and in the summary shows the aggregate position reflecting the operational approach to act as a single commissioner. Appendices to the report show the individual CCGs positions and account for the separate financial ledgers each are required to maintain as statutory organisations.

BNSSG has agreed financial plans with NHS England to achieve a control total deficit of £7.76m, including the achievement of savings of £82.4m and compliance with NHS England business rules to include:

- Contingency reserves of £5.8m
- 0.5% System risk reserve of £5.7m
- 0.5% uncommitted headroom of £5.7m

The CCGs have agreed a common approach to reporting to ensure that in consolidation the position is consistently reported. Each CCG continues to manage financial transactions and the financial governance of its own ledger, the consolidated report reflect the consolidate position of these three ledgers at the month close.

The approach uses common sources of information and adopts a single approach to reporting and forecasting

- Contract performance monitoring consistent with Service Level Activity (SLAM) reports from the main acute providers for activity at month 4 adjusted where challenges have been identified and the Trusts notified.
- Prescribing finance reports produced by the Pricing Prescription Authority (PPA) based on activity and cost in month 3.
- Progress in Savings monitoring and achievement as reported via the CCG savings planning and monitoring system, Verto.
- Risks of contract over performance and under delivery of savings and mitigating actions from contingency, uncommitted reserves and other actions to mitigate risk.

Performance against the key financial indicators is shown in the table 2 below.

2 FINANCIAL ASSURANCE DASHBOARD 2017/18

Indicator Name	Overall Financial Assurance Assessment	RAG Rating
1 Financial Plan	One or more of the key business rules have not been met	Red
2 In-Year Financial Performance	The CCG is forecasting delivery in line with the plan for the year, though at this stage there are material unmitigated risks to delivery	Amber

The CCG Improvement & Assessment Framework covers four domains and six clinical priorities.

The sustainability domain looks at how the CCG is remaining in financial balance, and is securing good value for patients and the public from the money it spends.

The two specific areas the Framework assesses in terms of financial sustainability are

- Financial Plan
- In-Year Financial performance

The detailed areas of assessment that feed in to these top level indicators are shown in tables 1 and 2.

1. Financial Plan Detailed RAG Ratings	RAG Rating

3 SUMMARY FINANCIAL POSITION

The summary BNSSG financial position at month 5 is a year to date deficit of £7.343m, a variance of £4.145m from plan. The forecast outturn £7.761m deficit remains in line with submitted financial plan.

The year to date position is summarised in the tables below:

M5 Summary Variance from Plan by CCG

Savings of £11.5m were achieved against a phased plan of £24m giving a shortfall of £12.5m. There were other net underspends of £1.6m notably on continuing healthcare costs and mental health; additionally, reserves were released of £6.8m resulting in the net £4.1m adverse variance.

Each of the areas of variance is reported on further in the detailed report.

Surplus / (Deficit)	(7,761)	(3,198)	(7,343)	(4,145)

BNSSG cumulative deficit, assuming the achievement of the planned position, is £62.796m on exit of 2017/18. The run rate at month 5 shows a current rate of expenditure which is £2.3m per month more than the available funding.

The combined reported risk of savings delivery and activity over-performance is £32.4m, this figure is mitigated by releasing the remaining contingency and 0.5% uncommitted headroom. The net risk figure after these mitigations is £22.7m.

Allocation (Appendix 3)

NHS England monitors the CCGs financial performance against the in-year allocations. As at Month 5 the in-year revenue resource limit is £1,166m including £1.8m of non-recurring allocations and an allocation of £20.8m for administrative running costs.

Changes to the allocations in month 5 were as follows

- £4.1m for GP access funding and TA improving access
- £0.3m for Cancer waits and phase 2 ED plans
- £0.14m for Children & Young Peoples personal Health Programme
- £0.17m transferred from NHSE to reflect correct commissioning responsibility for dispensing of certain mental health drugs

4 REVENUE COST STATEMENT

The financial position at Month 5 of the year is a forecast outturn breakeven position in line with BNSSG financial plan, the integrated position and individual CCG detail for Bristol, North Somerset and South Gloucestershire CCG are shown at appendix 1, 1.1, 1.2 and 1.3

The year to date position shows over performance against plan of £4.145m with the variances in Acute care £12.788m and medicines management £0.204m offset by underspends in Mental Health and Learning Difficulties £0.689m, Continuing Care £1.035m, corporate costs £0.383 and the release of reserves £6.749m.

A summary of aggregate position is shown in the table below:

5 FINANCIAL PERFORMANCE

ACUTE CARE

A summary of the NHS acute provider position is shown at *appendix 5*. This is based on the month 4 service level activity monitoring (SLAM) data the year to date variance is £1.364m, 1% above plan with a forecast outturn variance of £3.385m, 0.6% above the annual plan.

This section includes an analysis of the finance and activity position against the signed contracts including savings agreed in those contracts of £11.733m. Further acute savings of £44.759m not in contracts have been allocated to the acute budgets but are not reported on in this section as they have not been allocated to specific contracts and are not contained within the signed legal contracts.

The reported position below shows the aggregate position for the principle NHS acute contracts with University Hospitals Bristol NHS Foundation Trust, North Bristol NHS Trust, Royal United Hospitals NHS Foundation Trust and Weston Area Hospital NHS Trust against the agreed contract values for each in 2017/18.

Other NHS and non NHS acute care is reported separately.

The headline activity and finance summary for planned and unplanned care against contract plan is shown in table below and in further detail at *Appendix 5*.

Variance = (above) / below planned activity

	YTD Activity Variance %	Forecast Activity variance %	Year to Date Expenditure Variance %	forecast Expenditure Variance %
Planned Care	0.4%	0.4%	-4.4%	-4.3%
Un-planned Care	-2.1%	-2.1%	-0.2%	-0.5%
Including A&E Attendances	0.9%	0.0%	0.3%	0.0%

Month 4 data includes the impact of changes from 1 April 2017 in commissioning responsibility with NHS England for Specialist Services and the introduction of payment by results coding changes in HRG4+.

Activity and finance information at month 4 provides an indication of the forecast a full year position but is imprecise particularly with savings phased to later in the year and further mitigating actions that will have an impact, therefore the forecast variance on acute contracts has been reported in line with the variance year to date, with the risk of an adverse variance to year end included in the overall risks and mitigations.

Specific performance issues relating to the acute Trusts are described in the next section of this report.

North Bristol NHS Trust (NBT)

Variance from contract of £1.091m under-performance year to date

- Planned Care shows a year to date under-spend of £2.487m against day cases and inpatients the activity variance is 5,736, 4.50% below the contracted activity.
- Unplanned Care year to date over performance of (£0.712m) against Unplanned Care and emergency care, the activity variance is (986), 2.4% above contract.
- A&E Attendances show a year to date adverse variance of (£0.238m), the activity is (1,847) 7.3% above plan.

University Hospitals Bristol NHS Foundation Trust (UHB)

Variance from contract of (£3.234m) over-performance year to date

- Planned Care (including out-patient activity) shows a year to date under spend of £579K. A combined underspend of £942K against day case and elective activity is off-set by an overspend against out-patient procedures and excess bed days of (£363K). The overall planned care activity variance is (8,097), 6.1% above the contracted activity.
- Unplanned Care (excluding A&E attendances) shows a year to date under spend of £245K, 722 attendances below planned levels
- A&E Attendances show a year to date adverse variance of (£262K), the activity variance is (1,187) 3.1% above plan.

- A year to date over spend of (£2.919m) is being reported under the 'other' heading for unallocated contracted savings and unallocated HRGs.

Weston Area Health NHS Trust

Variance from contract of £1.227m under-performance year to date

- Planned Care shows a year to date under spend of £488K. The activity variance is 6.1% below contracted levels across all planned care points of delivery.
- Unplanned Care shows a year to date under spend of £414K, activity is 1,310, 7.2% below planned levels
- Other contracted spend is £325k below plan.

Royal United Hospital Bath NHS Foundation Trust (RUH)

Variance from contract of (£0.378m) over performance year to date

- Planned Care (including out-patient attendances) shows a year to date over spend of (£56K), primarily driven by an over-performance against contracted levels of day-case activity. Overall, the activity variance for planned care is 3.7% above contract.
- Unplanned Care shows a year to date over performance of (£379K), activity variance is 269 attendances (38%) above planned levels
- Other variances include a year to date high cost drugs underspend of £98k.

Non-NHS Acute and Specialist Care (e.g. Spire, Circle)

The independent sector providers include Spire Healthcare, Circle Hospital (Bath), BMI Healthcare, Marie Stopes International, Prime Endoscopy & Nuffield Health, providing services under contract to the CCG. The annual CCG budget relating to these providers net of anticipated savings is £14.387m in 2017/18.

The year to date position is an over spend of (£287k), 4.7%.

South West Ambulance Service Trust (SWAST)

The contract held by the CCGs with SWAST is a block with limited risk of financial variance for 2017/18.

The total planned spend for emergency ambulance services in 2017/18 is £31.08m.

CCGs are holding an allocation for a national programme relating to the pay banding of paramedic staff, this is assumed as committed subject to NHS England approval to release to the ambulance trusts.

Commissioning for Quality & Innovation (CQUIN)

Positions reported with providers include an estimate of the achievement of CQUINs up to a maximum of 2.5% of the contract value. CCGs are required to hold 0.5% of the CQUIN payment as a system reserve or pass the funding to providers for them to hold with the approval of NHSE.

CQUIN is assumed as fully committed in BNSSG financial position.

PRIMARY CARE

Prescribing and medicines management

Prescribing financial performance is taken from data issued by the Prescription Pricing Authority (PPA), which is part of the NHS Business Authority. The PPA calculates monthly expenditure data from the last 5 years, the number of dispensing days, the position of the month in the year and this is collated to extrapolate expenditure forecasts for the current year.

The position at month 5 shows an over spend of (£0.204m) against a planned budget of £132.97m with a forecast outturn variance of £0.069m.

Primary Care Practice Payments

CCGs work with GP practices to deliver services beyond those provided under the standard GP contract, which the CCGs commission as Local Enhanced Services (LES), this includes the transfer of funding allocation from NHS England for the Primary Medical Services premium (PMS)

The year to date spend across BNSSG is £2.571m an over spend of £0.169m.

Budgets for the additional funding for GP five year forward view and resilience are held in primary care and assumed to be fully committed in 17/18.

Out of Hours Services

The CCG has Contracts with two providers for Out of Hours Services: BrisDoc (who provide the GP Out of Hours Service) and NHS 111. At Month 5, the year to date spend is £4.914m, an underspend of £81k.

MENTAL HEALTH & LEARNING DISABILITIES

The main mental health contract in BNSSG is with Avon and Wiltshire Partnership NHS Trust (AWPT) and other contracts held with charitable and private sector providers.

The current forecast out-turn for all Mental Health & Learning Disabilities expenditure is an underspend of £537k against a budget of £130.236m. The underspend is as a result of lower than planned admissions which is currently expected to reverse in the latter part of the year. The CCGs have a risk share agreement with AWPT for placements out of Trust, there is currently no year to date or forecast overspend against this agreement.

COMMUNITY SERVICES

BNSSG commissioning community services from North Somerset Community Partnership, Bristol Community Partnership and Sirona Health and Care. The contracts are block contracts for community services and for Children's Community Health in Bristol and South Gloucestershire. The contracts are block and present limited risk in year.

Community services also include Joint working between health and social care spend with local authorities including the Better Care Fund social care monies, reablement and other funds agreed between the CCGs and Local Authorities in the S75 agreements.

There is currently a year to date adverse variance of (£0.13m) against a budget of £57.392m and with a forecast out-turn underspend of £0.328m

CONTINUING HEALTH CARE (CHC)

BNSSG CCGs plan to spend £68.116m on continuing health care and NHS funded care in 2017/18. The year to date position shows an under spend of £1.035m, 3.5% against a budget of £29.164m.

OTHER

The CCGs also hold budgets for other areas of health related expenditure including Research and Development, Public Health England, safeguarding, Primary Care IT and estates costs. The year to date position shows an over spend of £10k against a budget of £2.839m.

6 SYSTEM FINANCIAL RECOVERY SAVINGS

The detailed System Financial recovery savings monitoring for 2017/18 is attached as Appendix 2. The reporting is based on the monthly status reports and reviews undertaken by the programme control centres, the progress against the savings plans identified by each group is monitored and recorded in the Verto project management tool.

At the end of August (month 5), progress against the year to date savings plan is £11.597m, 48% delivery against planned savings of £24.06m an under-delivery of (£12.463m).

The run rate of savings shows that in order to deliver the savings required to achieve the control total, further savings and mitigations of more than £1.7m per month will need to be identified against the current trajectory to the reported position to plan.

The risk of shortfall in savings is reflected in the risks and mitigations section of the report.

7 BETTER CARE FUND

Each CCG has a local arrangement for their S75 Better Care Fund agreements with Bristol, North Somerset and South Gloucestershire Council respectively and their own arrangements for managing risk.

NHS England has issued guidance on the refresh of the Better Care Fund, including delivery against four key indicators and support of local health and Wellbeing bodies to be submitted by 11th September 2017.

The guidance includes minimum CCG contributions to the S75 agreement, including mandatory contributions for social care maintained at a real terms level in line with inflation, NHS commissioned out of hospital services. Local Authorities also directly receive Section 31 Grant funding for the improved better care fund and disabled facilities grant.

Better Care Fund expenditure is reported with the community services section of the finance report.

8 RESERVES

Contingency, Headroom and Other reserves held by the CCGs are shown at appendix 4 and summarised below.

At month 5, £6.749m of the reserves have been released into the year to date position to mitigate the short fall in the achievement of savings, this is forecast to increase to £8.32m at the year-end outturn.

	Annual Budget	Year to Date Budget	Year to Date Expenditure	Year to Date Variance	Forecast Expenditure	Forecast Variance
	£000K	£000K	£000K	£000K	£000K	£000K
0.5% Contingency Reserve	5,771	2,405	0	2,405	2,316	3,455
0.5% Uncommitted Reserve	5,675	2,365	0	2,365	4,229	1,446
0.5% System Risk Reserve	5,675	0	0	(0)	5,675	-
Other Uncommitted Reserves	4,239	1,836	499	1,338	1,041	3,198
Transformation Budget	2,272	787	787	0	2,272	-
Committed Budgets - Allocation Adj.	540	225	225	0	540	-
Committed Budgets - Programme Spend	2,793	1,164	522	642	2,574	220
Total Reserves	26,965	8,782	2,033	6,749	18,646	8,320

The system risk reserve is subject to further direction from NHS England and is forecast as committed.

The uncommitted reserve includes budget provision that is now expected to be releasable in 17/18 and is subject to ongoing review.

The transformation budget includes funding for the GP 5 year forward view, improved access the costs of enabling transformation.

Committed budgets are currently being held in reserves for known allocation and expenditure commitments, these will be allocated to programme areas in future months.

9 RUNNING COSTS

BNSSG CCGs have a current running costs allocation of £20.8m and are expecting to achieve savings of £1.5m in 2017/18. The net running costs budget is £19.3m, and is currently showing a year to date underspend of £0.383m.

10 RISKS AND MITIGATIONS

The total financial risks at month 5 are £32.386m, these are mitigated by £9.675m by the further release of contingency, 0.5% uncommitted headroom and uncommitted reserves. The main risks are:

- The delivery of savings as described in section 6 of this report.
- Acute contract over performance.

- Demographic growth: the financial plans assume savings plans will contain and offset potential increases in patient activity caused by the impact of changes in local population trends.
- There are no HRG4+ and IR resource adjustments included as risks, Providers are currently working to PbR as the basis of payment. The most recent calculated impact of the implementation is shown as a planned cost pressure, which has partly been mitigated by an additional allocation reflected in the RRL. The actual year to date impact of any changes is reported within contract positions.
- The mitigation of risks are assumed to be met from the 0.5% uncommitted headroom and 0.5% contingency.

11 STATEMENT OF FINANCIAL POSITION (BALANCE SHEET)

The aggregate Statement of Financial Position is summarised in the table below. Overall the CCG has negative Taxpayers' Equity (its creditors are bigger than its debtors) but the CCG's going concern status is reviewed by the Finance Committee and confirmed by our auditors.

Appendix 6 attached shows the SoFP for Bristol, North Somerset and South Gloucestershire CCG

	Opening Balance at 1/4/2017	Movements	Balance at 31/08/2017

12 CASH FLOW FORECASTING

CCGs draw down cash from NHS England at the beginning of each month to the CCG's Government Banking Service accounts. CCGs have a statutory duty not to exceed their annual Maximum Cash Drawdown. A consolidated cash flow forecast is reported in Appendix 7.

Each CCG receives a monthly cash report of year to date drawdowns and amounts paid on its behalf by the NHS Business Services Authority for prescribing activities. The Maximum Cash Drawdown excludes the CCG's capital cash allocation.

During the course of the year, CCGs submit quarterly Annual Cash Forecasts to NHS England to revise their Maximum Cash Drawdown and monthly forecasts for their daily cash requirements for the following month.

13 CAPITAL PLAN

The CCG has submitted capital PID's for Primary Care I.T. spend on equipment that is procured by the CSU on behalf of the CCG, but owned by NHS England, and therefore not reported in the CCG financial position. PIDs are being prepared for submission in September for capital IT to replace the CCG office equipment as it reaches the end of its usual asset life.
